A MASTERPIECE®
By Andy North & Roger Packard

GOLF DIGEST - "BEST PLACES TO PLAY"

Trappers Turn Golf Club offers an unparalleled golf experience. Masterfully molded and award winning, the 27-hole championship golf course is set amidst the scenic canyons of Wisconsin Dells. The three nines offer the perfect blend of individual characteristics, complementing playability and challenge. Trappers Turn is the destination for golfing enthusiasts.

Atop the canyons, gentle rolling fairways flow into a sea of moguls, giving the course a Scottish flair. Other holes along the ridge have fairways that weave through dense hardwood forests of oak and birch.

Mystic Lake is a spring fed body of water that is typical of North and Packard's use of natural hazards, in which the water enhances the challenge without dominating.

Going beyond golf, the Trappers Turn Restaurant offers and perfectly executes nightly dining, local's favorite Friday fish fry, Sunday brunch, stunning Holiday Buffets and catered dining experiences for all those special occasions. Trappers Turn culinary is sure to excite.
